## SUMMARY

Passionate B.Tech CSE student eager to learn and explore the ever-evolving field of technology. Interested in emerging technologies like artificial intelligence and machine learning. Seeking opportunities to collaborate with developers and learn from experienced professionals. Skilled in Python, HTML, CSS, JavaScript, and Golang, with a goal to make meaningful contributions to the tech industry while continuously expanding my skill set.

---

## EDUCATION

### Poornima University

Jaipur, Rajasthan (India)

Bachelor of Technology in Computer Science And Engineering ); CGPA: 7.8

August 2023 - July 2027

### GOVERNMENT SENIOR SECONDARY MAHARAWAL SCHOOL

Dungarpur, Rajasthan,(India)

Class 12 (High Secondary) with Subject Physics, Chemistry, Maths ; percentage :73.40 May 2022 - April 2024

---

## SKILLS SUMMARY

- **Languages:** Python, HTML, CSS, Javascript, GOLang.
  - **Tools:** Git / GitHub .
  - **Soft Skills:** Excellent communication, Adaptable, Problem Solving, Team Management, Decision Making
- 

## EXPERIENCE

### Artificial intelligence and Machine learning with python | Falcon's Beyondtheimagination (Internship)

June 2024 - July 2024

- Developed and implemented machine learning models using Python, focusing on data analysis and predictive analytics.
- Utilized Pandas for data manipulation, cleaning, and preparation, ensuring high-quality datasets for analysis.
- Created data visualizations with Matplotlib to effectively communicate insights and trends to stakeholders..
- Collaborated with a team of data scientists and engineers to develop innovative AI/ML solutions.

### Web Developer | Unified Mentor (Internship)

May 2024 - August 2024

- Developed and maintained website features using HTML, CSS, and JavaScript, enhancing user experience and functionality.
- Collaborated with the design team to implement responsive and visually appealing web pages.
- Participated in code reviews and contributed to the development of best practices and coding standards.
- Utilized version control systems like Git to manage and track code changes effectively.

### Campus Ambassador | The Return Journey

November 2023 - March 2024

- Developed and executed marketing strategies to enhance brand presence and visibility on campus.
  - Developed and executed marketing strategies to enhance brand presence and visibility on campus.
  - Assisted in recruiting and mentoring new ambassadors, ensuring a cohesive and motivated team.
- 

## PROJECTS

### Mini Web Server | Go Lang

- Designed and implemented a lightweight web server using Go, handling HTTP requests and responses efficiently.
- Utilized Go's concurrency features to handle multiple client requests simultaneously, enhancing server performance.
- **Conducted rigorous testing** to ensure reliability and robustness, including unit tests and stress tests.

### Display Jokes |PYTHON

- Developed an interactive Python program to display jokes to users, enhancing user engagement and experience.
- Implemented a user-friendly interface with text-based inputs and outputs, making the program accessible and easy to use.
- Tested the program rigorously to handle various edge cases and ensure reliable performance.
